2024-2026

#### LIVE & TECHNICAL EVENTS

Two years studying live event production with a focus on live sound, digital console operation, PA systems, event management and real-world show conditions.

2 YEARS' STUDY

## 01 PROFILE

Live Sound Engineer with two years of hands-on experience in the Live Sound & Events sector, developed through the Live & Technical Events course at Confetti College Nottingham. Practical FOH, monitor, PA and signal-flow experience across venues, festivals, cultural events and live sessions in Nottingham and Derby.

## 02 SELECTED WORK

2026

### Sneinton Festival, Nottingham

Sound Operator

- Appointed sound operator for the upcoming community festival, coordinating FOH and monitors for local musicians.

2026

### White Room Sessions Podcast

Sound Operator

- Managed and routed audio lines for emerging Nottingham artists performing live sessions at Fisher Gate Point.
- Supported clean signal flow, artist setup and live-session reliability.

2025

### Hockley Hustle, Nottingham

Sound Operator

- Supported stage sound operations across Hockley venues for the city-wide charity music festival.
- Assisted changeovers, patching and live troubleshooting under time pressure.

2024 - 2025

### Otaku Link & JapanFest, Derby

Sound Assist

- Assisted audio installations, microphone arrays and stage patching for cultural productions and performance shows.

2024 - PRESENT

### Metronome P1 & P2, Nottingham

Sound Engineer

- Mixed a high volume of multi-genre acts in professional-grade music venues.
- Built confidence with digital routing desks, speaker systems, show flow and fast issue resolution.
